PROFESSIONAL SUMMARY

Motivated Software Developer and Data Analytics enthusiast with experience in analytics solutions, client-facing web applications, and AI-powered data projects. Skilled in Python, SQL, Power BI, Tableau, Supabase, and modern AI tools including Claude AI and Hugging Face. Proven ability to deliver end-to-end production projects from requirements gathering to deployment. Currently pursuing AWS Certified AI Practitioner (AIF-C01) certification, expanding expertise in cloud computing and generative AI workflows.

TECHNICAL SKILLS

Programming & Query Languages: C, Python, SQL

Data Analytics & Visualization: Power BI, Tableau, Microsoft Excel, Data Analysis, Data Visualization

Databases & Platforms: MySQL, Supabase

AI & Productivity Tools: Claude AI, Hugging Face, Prompt Engineering, AI-Assisted Development

Web Technologies: HTML, CSS, JavaScript

Development Tools: Cursor, GitHub, Visual Studio Code

Cloud & Emerging Technologies: AWS Certified AI Practitioner (AIF-C01) – Currently Pursuing

EDUCATION

Bachelor of Engineering (B.E.) – Bannari Amman Institute of Technology CGPA: 7.08

Higher Secondary Certificate (HSC) – Saratha Institutions, Gobichettipalayam 2020 – 2022 | 86.7%

Secondary School Leaving Certificate (SSLC) – Saratha Institutions, Gobichettipalayam 2019 – 2020 | 96.8%

INTERNSHIP EXPERIENCE

Data Science Intern | Sourcesys Technologies

- Built machine learning and data analytics solutions; performed data cleaning, preprocessing, and exploratory data analysis (EDA) on structured datasets.
- Extracted actionable business insights from complex datasets and produced reporting deliverables for stakeholder decision-making.
- Contributed to the development and evaluation of an AI-driven recommendation system from data pipeline to model output.

PROJECTS

IntelliRec – AI-Powered Recommendation System Python | Machine Learning | Data Analytics

- Developed an AI-powered hybrid recommendation system achieving high Recall@10 performance on large-scale user interaction datasets (1M+ records).
- Applied collaborative filtering, feature engineering, and sentiment-aware ML techniques to generate personalized recommendations.
- Conducted exploratory data analysis and iterative model evaluation to improve recommendation accuracy and system effectiveness.

Smart Airport Facility Utilization Analytics & Visualization System Python | SQL | Power BI | Supabase

- Designed centralized operational dashboards for monitoring airport resources including boarding gates, baggage handling, parking, and passenger service zones.
- Built data analysis workflows to identify congestion points, peak utilization periods, and resource allocation opportunities using SQL and Power BI.
- Proposed scalable multi-airport architecture supporting future integration with real-time data sources and smart airport technologies.

Client Website – Selva & Associates (Taxation & Audit Consultancy) *HTML | CSS | JavaScript | GitHub Pages*

- Independently gathered client requirements, designed, developed, and deployed a production-ready responsive business website.
- Delivered service pages, company profile, and contact functionality — managing full deployment, testing, and stakeholder feedback via GitHub Pages.

Mobile-Enabled Slot Reservation System *HTML | CSS | JavaScript | SQL*

- Developed a mobile-friendly reservation platform with real-time slot availability tracking, eliminating scheduling conflicts and double bookings.
- Designed database schemas for reservation management and user records with an intuitive, responsive user experience.

Smart Prosthetic Hand with Integrated Voice Assistant *Arduino | Embedded Systems | Sensors*

- Designed an affordable smart prosthetic hand with voice-assisted control mechanisms to enhance user accessibility and independence.
- Integrated sensor-based functionality to improve responsiveness and operational accuracy of the assistive device.

CERTIFICATIONS

- Data Analytics Certification – Novitech R&D Private Limited
- Power BI Certification – Novitech R&D Private Limited
- AWS Certified AI Practitioner (AIF-C01) – Currently Pursuing

CONFERENCES & HACKATHONS

- Presented "Data Analysis on Airports" – PSG College of Technology, Prayatna Symposium.
- Presented "Ripped Fruit Detection" – National Level Conference NCAIQUBIT-2025.
- Presented "Fresh and Rotten Fruit Detection Using Raspberry Pi" – National Level ETEST-23 Conference.
- Participant – TN-IMPACT 2026 (TANCAM) Hackathon.
- Participant – ASTRAVA 24-Hour Innovation Hackathon.

AWARDS & CAMPUS INVOLVEMENT

- National Gold Medalist – 5th National Level Yoga Ranking Championship (Junior Yoga Asana).
- 1st Place, Tamil Nadu State Team Selection for Yoga – demonstrating discipline, consistency, and performance under pressure.
- Active Member – Geo Club and Yoga Club, Bannari Amman Institute of Technology.
